JSONL Training Data Converter for Fine tuning LLM

LLM Fine-tuning Dataset Builder · 10 Frameworks

v1.0 · Browser-based ⚙️ 🌙

3 ADD TRAINING DATA

+ Single Entry

Batch Upload

After clicking **Add Entry**, the entry is saved and a per-entry download button appears automatically in the **Downloads** tab on the right. Leave **Page Object Code** blank to auto-generate it from the HTML using the selected framework's template.

HTML DOM required

Paste your HTML DOM here...

Page Object Code optional — auto-generated from HTML if left blank

Load Sample Template
